SUMMARY

Passionate about developing secure, scalable software systems with strong interest in **cloud security, web protection, and backend architecture**. Eager to contribute to **Zscaler's mission of securing digital transformation** through innovative engineering

EDUCATION

Siddaganga Institute of Technology, Tumakuru 2027

Bachelor's, Information Science and Engineering

• GPA: 8.98

Alva's PU College 2023

Pre University Education, Karnataka

• GPA: 96.50

St.Michael's Convent High School 2021

Karnataka State Board, Karnataka

• GPA: 97.28

Work Experience

Elva Tech Apr 2025

Intern

Bangalore

- Developed responsive frontend features using React.js, enhancing UI performance and user experience across multiple projects.
- Integrated Keycloak for authentication and role-based access control, strengthening application security and user management.
- Built and optimized backend APIs with Node.js/Express, ensuring seamless and reliable client-server data flow.
- Collaborated with senior engineers in an Agile environment, gaining practical experience with Git, REST APIs, and deployment workflows.

CORSIT -Club of Robotics SIT Nov 2023

Core Member

Tumakuru

- Collaborated on robotics projects using React.js and Visual Studio Code, mentored juniors in cross-functional teams, and improved team efficiency through effective time management

HACKATHON AND PERSONAL PROJECTS

DataGuard Dec 2024

Hackcult, Hackculture Hackathon

Tumakuru

- Developed a secure file encryption system with AES-256 and differential privacy to protect sensitive data.
- AES-256 encryption for robust data protection
- Differential privacy (Gaussian noise) to safeguard sensitive data

CORSIT Secure Quiz Platform 2025

CORSIT

Tumakuru

- Built a **secure quiz platform** with advanced anti-cheating features like tab switch detection, fullscreen enforcement, and device fingerprinting.
- Developed using **Next.js (TypeScript)**, **MongoDB**, and **Tailwind CSS** with **JWT-based multi-role authentication**
- Created a **real-time admin dashboard** for live session monitoring, security alerts, and performance analytics.
- Implemented **RESTful APIs** and **Zod-validated forms**, ensuring reliability, scalability, and production-ready deployment.

FinVerse-Mobile Banking App | <https://github.com/XeRxEs02/FinVerse>

2025

Design Thinking

Tumakuru

- Engineered a secure mobile banking app with React.js, Node.js, and MongoDB; implemented JWT authentication and bcrypt hashing to safeguard sensitive transactions, improving system security and reliability.
- Implemented user authentication (4-digit PIN), account dashboard, transaction history, and money transfers.
- Strengthened security with JWT authentication, bcryptjs PIN hashing, and middleware protections.

DyslexiEase- AI-Powered Platform

Apr 2025

ResearchGate

Siddaganga Institute of Technology, Tumakuru

- AI-powered platform that uses real-time eye-tracking to detect early signs of dyslexia like letter reversal and line skipping
- Implemented adaptive learning in DyslexiEase using TensorFlow and PyTorch to personalize content based on each child's learning style with the Orton-Gillingham method.
- Enabled real-time handwriting and voice feedback in DyslexiEase using AI-powered recognition tools to improve phonics, pronunciation, and motor skills.

- Gamified learning in DyslexiEase with emotion-aware storytelling that adapts content difficulty based on facial expression and engagement analysis.
- Developed DyslexiEase's full-stack architecture using React, Node.js, and MongoDB with secure authentication and real-time integrations like Twilio and Google Cloud Vision.

TECHNICAL SKILLS AND INTERESTS

- **Languages:** C, C++, Python, JavaScript, TypeScript
- **Developer Tools:** HTML, CSS, JS, Visual Studio Code, npm, Software Development Process
- **Cloud/Databases:** Mongo DB, Node JS, Express JS, React.js, Blockchain, Docker, Rest APIs
- **Soft Skills:** Listening Skills, Leadership, Communicative, Time Management
- **Areas of Interest:** Cybersecurity, Encryption and Decryption, Software Architecture, Web Development, Cloud Security, Networking Protocols, Machine Learning

ACHIEVEMENTS

- **Winner – Hack-CSE-Ierate 2025 (Team Existence):**Secured 1st place as part of Team Existence in a 12-hour internal hackathon conducted by ResearchGate on April 5, 2025, at Siddaganga Institute of Technology, Tumakuru.
- **Top 6 Finalists in The Hackcult Hackathon by Hackculture, Cybersecurity Domain.:**13-14 December 2024
- **Codechef Competitive Coder-2 Star:**Highest Rating-1321 47 total contests attendted,997 Problems solved
- **Codeforces Active competitive coder:**Highest rating -1187
- **Placed Second runner up in the State level IT Quiz:**11/09/2020
TCS Rural IT quiz 2020
A National event acorss the nation to boost IT interest organised by TCS a TATA lead community
- **Best Abstract-Aavishkar:**Our Project Dyslex-Ease was awarded the Best Absrtact on the Ideas 2025 event organised by IEEE Student Branch Siddaganga Institute of Technology.
31/05/2025
